MOZZARELLA (BUFFALO)

MOZZARELLA (BUFFALO)

OUR STORY

The company IL PARCO was born in San Giovanni Rotondo (FG) ITALY, in the territory of the Gargano National Park, in the mid-90s and is specialized in the production of buffalo milk and its transformation into Mozzarella di Bufala Campana DOP.

Our Campania Buffalo Mozzarella DOP

The buffalo mozzarella from “IL PARCO” is DOP because it is produced in a territory that for its geographic, historic and traditional characteristics merits be safeguarding and protecting.

OUR PRODUCTION

The term “mozzarella” comes from the practice of “mozzare” hand-spun pasta with indexes and thumbs in its most classic form: roundish. Buffalo Mozzarella is a cheese deriving from the cheese-making of fresh spun pasta, a historical heritage of the dairy chain in Southern Italy.

MOZZARELLA (COW)

MOZZARELLA (COW)

OUR STORY

Ciresa carefully selects **high quality milk** to produce its Mozzarella, which is a preservative free cheese. Thanks to modern technologies used for its production, Ciresa Mozzarella preserves its genuineness.

Our Mozzarella is a white, fresh cheese. It has a soft, moist texture, which is slightly **grainy and stringy**, since it belongs to the **pasta filata family**. It is characterised by a **fresh, delicate taste** of milk and it can have a slightly **lactic** taste. Being a fresh cheese, our Mozzarella is high in water content and therefore low in fat.

MOZZARELLA *(PRODUCE IN HONG KONG)*

FIORE is a brand which produces Italian mozzarella in Hong Kong. Using imported curds and fresh milk from Italy, our dairy products are made following the spirit and the original recipes.

Since 2016 we have brought the true Italian craft of cheese production in Hong Kong, working as a traditional Italian dairy company with passion and devotion and using the same equipment and techniques that have been used for generations to produce products of the highest quality.

The background of the image features a close-up of several brown eggs, a wooden rolling pin, and a small white bowl containing a single egg yolk. The scene is set on a dark, textured surface, possibly a countertop. A decorative yellow floral border is overlaid on the left side of the image, framing a yellow rectangular box that contains the text.

VEGA MANCHA

SPANISH CHEESE SPECIALIST

Family business since 1985

The hidden charm of life lies in the construction based on small coincidences that draw a destination. This is how, in the beginning, two friends began to trace what is today the history of Vega Sotuelamos, which began in the 80s in the district of El Bonillo.

A small artisanal cheese factory took its name from this district, Sotuelamos, of which the two friends were loyal consumer customers.

LEG & SHOULDER PROSCIUTTO HAM

IBIS, ITALIAN CHARCUTERIE SINCE 1962

Today Ibis has installed one of the most **modern** and **efficient** production facility in Italy, taking advantage of very competitive processing costs and high level of **quality** and **safety**. The facility **exports** its products in more than 50 countries **worldwide**.

Each **plant** has been allocated within the well-recognised regions identified with **PDO** (Protected Designation of Origin) and **PGI** (Protected Geographical Indication) marks to offer a wide range of typical **Italian products**.

BERNARDINI
GASTONE
(ITALY)

Over 150 years we have painstakingly prepared high-quality meats and game, applying our wealth of experience while meeting the quality and safety standards required by the modern food industry.

Select raw ingredients, chosen and inspected on site; qualified staff, traditional working methods, and a pinch of our own creativity: it all goes into offering you the very best. Each piece is a story unto itself: skillfully cut by hand, carefully seasoned with spices and herbs, then allowed to age naturally as long as it takes to obtain an exquisite product, created for the most finicky palates.

Culatello di Zibello
DOP 16/20M

HA8082-IB
4.4 KG
UNIT: KG

BRAND
IBIS
(ITALY)

Culatello di Zibello PDO is the most prized and **exclusive** product of the Italian **charcuterie**. The area and its characteristic **climate** are an essential factor in maturing and curing the Culatello. The central leg muscle of the pig is processed **entirely by hand**, salted and peppered.

It is bagged in **natural casing**, sewn, hand-tied and cured in the traditional **cellars** for at least **14 months**. This gives the Culatello di Zibello the intense **fragrance** of cured ham, and a **smooth** and **delicate** flavour.

PASTA

Pasta

Pasta

Mancini Pastificio Agricolo produces pasta exclusively with the durum wheat that it grows and harvests annually in the fields surrounding its pasta factory, in the heart of Le Marche region, Italy, resulting every year in a “seasonal” product reflective of each year’s agricultural conditions.

--

Semolina and water are the only two ingredients. It is therefore the cultivation of the wheat and its processing that identifies a good pasta, that one made in a workmanlike manner. And it is from wheat that the history of Pasta Mancini begins.

PASTA

Combining tradition & innovation to rediscover the authentic taste of Pasta.

Our mission is what drives us to do everything we can to produce extraordinary Pasta. We do this by creating breakthrough innovations, making our production more sustainable, and making a positive impact in the communities where we live and work.

Our pasta factory is located in Senigallia, Marche and includes the brands Metodo Massi - Pasta Superiore and Pasta Massi.

La Molisana

La Molisana Pasta: classic types of pasta

All our **formats from the Classic line**: a range of pasta **made from only selected wheat**. Stone decortication purifies each grain, preserving its original qualities and bronze drawing makes our **Classic Pasta** rough and tenacious. Highly resistant when cooked, genuine and digestible, La Molisana Classic Pasta also has a protein index never lower than 14%.

FROZEN PASTA

The best deep-frozen fresh pasta from Italian tradition

Laboratorio Tortellini dough is perfect: to make it more elastic and resistant to cooking, they use durum wheat semolina processed in the best Italian mills, and at least five fresh pasteurized barn eggs for every kilo of flour. For the fillings, they visit the production areas personally to choose our raw materials.

RICE

RICE

ACQUERELLO®

A UNIQUE RICE IN A UNIQUE TIN

Acquerello started in 1991 from Piero Rondolino's idea to create a rice that distinguished itself from the others for its superior quality. Grown, processed and packed at Tenuta Colombara, in the heart of the province of Vercelli, Acquerello is a unique Carnaroli rice.

After harvesting, the rice is aged between 1 and 7 years in refrigerated silos. It is then milled slowly and delicately using a propeller, a process invented in 1884 and nowadays used only by the Rondolino family. Experience brings intuition: the grains are mixed with their germ, which contains all the most precious nutritional substances, the vitamins and mineral salts contained only in wholegrain rice. This process is protected by an international patent.

Acquerello is the epitome of rice, thanks to its nutritious, firm and flavor grains: it remains "al dente", absorbs sauces and dressings and its versatility makes it ideal for every kind of recipe, while preserving all the characteristics of the rice.

A rustic loaf of bread, possibly sourdough, sits on a wooden surface. The bread has a golden-brown crust with some darker, charred areas and is dusted with flour. It is placed on a white cloth with a blue striped pattern. The background is dark and textured. A decorative white floral border is on the left side, and a semi-transparent grey box with the text 'BREAD / PIZZA' is overlaid on the left side of the bread.

ITALPIZZA
(ITALY)

A close-up photograph of several golden-brown, fried finger snacks, possibly potato or bread-based, arranged on a light-colored plate. The snacks have a textured, crispy exterior and a soft, pale interior. A decorative orange banner with white floral patterns is overlaid on the left side of the image.

TANTO QUANTO
BASTA (SICILY, ITALY)

FROM SICILY

The idea of TQB arose from a path dripping with domestic experience, scent of bread, work, and study that improves and turns into constant research for high-end material. The selection starts with identifying those producers that respect the natural season cycles and yields of our land and are characterized by the desire to be able to reproduce authentic Sicilian flavors.

Thanks to the use of essential and complementary ingredients, the intent of refining and distinguishing food translates into an evocation of geographies, fascinations and tastes. Quantobasta offers a line of savory products we have chosen to define “The essential”:

“The essential” as what we can not do without.

“The essential” as that which must always be present in-pantry. It is a basket full of extraordinary intensity: a valuable synthesis of scents, flavors and colors of Sicily.

TASTE OF ITALY

Dilillo Food is a company based on traditional recipes handed down from generation to generation for many years. It originates from an established and already well-known company: I SAPORI DI UNA VOLTA, to which the old traditional Recipes have guaranteed the discovery of an absolutely new taste of their products.

The peculiarity of this line is 100% guarantee of MADE IN ITALY of our raw products, exalting the taste of EXTRA VIRGIN OLIVE OIL and typical flavours of the South of Italy.

OLIVE OIL (EXTRA VIRGIN)

Oilalà
LIVE BETTER

The worldwide award-winning extra virgin olive oil, used by international Michelin-starred chefs

The worldwide award-winning extra virgin olive oil, used by international Michelin-starred chefs.

Most of our olive trees are from Coratina olive variety. We get an olive oil rich in fruitiness, spicy and bitter hints, which denote a very high concentration of polyphenols, very powerful antioxidants. Unique design and innovative experience:

We cooperate with artists and designers, the most innovative, to create masterpieces that will travel around the world, in order to guarantee to our customers an unforgettable experience.

OLIVE OIL (EXTRA VIRGIN)

Oilalà

LIVE BETTER

Intense
Coratina

“CORATINA”

The typical native olive oil of the Apulia region, the source of an oil characterized by fruity, intense and great personality. Very low acidity and high content in polyphenols and tocopherols.

OLIVE OIL

Since 1946 Coppini Arte Olearia has been a specialist in the production and distribution of Extra virgin Olive Oil of Certain and Certified Quality, for top-level Restaurants, food Speciality stores and true Gourmets.

The Extra virgin Olive Oil by Coppini Arte Olearia is available on the tables of the most famous Italian Restaurants and in the kitchen of top Chefs, and everyone who appreciates quality Extra virgin olive oil can cook real masterpieces when they use our oil every day at home.

Coppini Arte Olearia has been pursuing a farsighted idea based on innovation and respect for the environment, a plan put in action with commitment and perseverance by the Coppini Family since as far back as 26 March 1946. A plan conceived by Américo Coppini and his wife Anita, and then carried on by their son Ernesto, visionary and brave pioneer, then later by his four sons, young and brilliant entrepreneurs.

BALSAMIC VINEGAR

BALSAMIC VINEGAR

Antica Acetaia
Luigi Cremonini

Located at the base of Castelvetro's hills, Antica Acetaia Luigi Cremonini was built in the mid-twentieth century as a family passion. It has always followed the strict specifications of production, strongly believing in the «Made in Italy» label and in the local food and wine excellences.

In order to gain the protected denomination of origin (P.D.O.) guaranteed by the Consortium, the Traditional Balsamic Vinegar must meet multiple qualitative parameters. However, it is with the slow passing of time that this precious condiment turns into "Black Gold". The final product obtained from this long process is characterized by a round taste that presents the perfect balance between sweetness and sourness.

Acetaia Luigi Cremonini has always been dedicated to the production of Traditional Balsamic Vinegar, following the strict specifications and the local customs handed down from generation to generation.

Packaging: Glass bottle (100 ml) with a spheric shape and a rectangular base designed by Giorgetto Giugiaro, the unique bottle allowed by the Consortium of Traditional Balsamic Vinegar of Modena, with its box;

BALSAMIC VINEGAR

BA0002-IN (100 ML)

**Traditional Balsamic Vinegar Of Modena DOP
(Aged minimum 12 Years)**

傳統特級黑醋 (12年)

UNIT: BOX

Ingredients: 100% Cooked grape must

Aging: 12 years minimum

Use: Sweet and sour, indicated as a final condiment on fresh cheese and ricotta; fresh pasta, such as tortelloni, ravioli and risotto; fish salads, omelettes, raw and cooked vegetables, meat, for example fillets, carpaccios and escalope;

BA0001-IN (100 ML)

**Traditional Balsamic Vinegar Of Modena DOP
(Aged minimum 25 Years)**

傳統特級黑醋 (25年)

UNIT: BOX

Ingredients: 100% Cooked grape must

Aging: 25 years minimum

Use: Sweet and balanced, it goes very well with P.D.O. Parmigiano Reggiano, raw ham, boiled meat, risotto, ice cream, crème caramel, strawberries and cherries. At the end of the meal, it can also be used as a digestive;

ITALIAN FASSONA MEAT (CHILLED)

THE PIEMONTESE FASSONA BREED • Slow Food Presidium

La Granda is a new way of producing meat, which starts from the land, because if the land is "good" the entire supply chain benefits: from the roots to the final product, through the professionalism of the farmers and the tranquillity of the animals.

La Granda is "preserving by innovating": a responsible intervention in the territory that protects and encourages tradition, using continuously renewing technologies and studies.

La Granda is the valorisation of the role of the breeder, who in this context also learns to be a good farmer. In fact, only through in-depth knowledge of the terrain does he have the opportunity to improve and perfect his work, day by day.

The Granda is a model that can be replicated and adapted to multiple situations and agricultural sectors, a few clear and precise guidelines recommended to anyone who wants to undertake a quality path.

ITALIAN PREMIUM MEAT

(CHILLED / FROZEN)

ITALIAN BEEF

Carima qualifies the best beef selections and encloses them inside a brand that is based on few unmistakable principles: the typology of the cattle, its conformation and its marble score.

The cattles designated to our line are all females of Italian/European breed, which present outstanding characteristics, resulting in a unique marbled beef gastronomy experience.

Marbling is the visible unsaturated and healthy intramuscular fat that accumulates within lean muscles, which creates a marble pattern in the meat — hence the name.

Marbling highly affects many attributes of the meat: its juiciness, tenderness, texture, and flavor. All of them are crucial to the “eating experience” and, for this reason, the presence of marbling has an extremely positive effect on the quality of beef.

**GALLETTO
VALLESPLUGA**

THE BIRTH OF GALLETTO VALLESPLUGA

The history of the Galletto Vallespluga begins in our breeding farms in Valchiavenna. Here the laying hens lay their eggs, which are gently transported to the hatchery, immersed in the green hills of Piacenza, where the chicks will see the light.

The new-born chicks are transported to the Galletto farms, which are located close to the Alps. In a context of low animal density, they can scratch on the ground in large spaces. They are fed with vegetable feed based on corn, soy and wheat, with water and mountain air. The high level of biosecurity makes it possible to avoid the use of antibiotics.

Antonio Vasile
SANTO SPIRITO

FOR THE MOST DEMANDING TABLES

Santo Spirito is a fishing village north of Bari whose history, like that of its inhabitants, is linked to fishing and the generosity of the sea. From the close link with the territory and the Apulian fishing tradition, Antonio Vasile started a fish company that for years has been selecting only the best of the local fish for the most demanding tables.

CUTTLEFISH / OCTOPUS

OCTOPUS

OCTOPUS

Discefa offers all kinds of frozen octopus: from frozen octopus tentacles to whole octopus on trays and tenderized octopus in flower form. All of these options can be defrosted just 30 minutes before eating and never lose even a hint of their flavor or nutrients.

The huge time savings and variety of formats are particularly advantageous to our restaurant industry customers. For them, and for you, shifting to **frozen octopus** guarantees quality and efficiency.

OCTOPUS (COOKED / FROZEN)

HIGH QUALITY OCTOPUS TENTACLES (COOKED)

The cooked frozen octopus maintains the properties and characteristic flavor of a freshly cooked octopus intact. Served in the Traditional Mediterranean Way, "Ready to Eat"

HOW TO PREPARE COOKED OCTOPUS TENTACLES

1. Defrost the octopus. Remove the bag from the freezer. Place it in a container with water at room temperature without removing from the bag. Let it defrost for 30 minutes.
2. Place in the microwave and heat for 2 minutes at medium power of 700/800 watts and drain.
3. Serve and season.

UNIT: KG

BRAND
El Rey DEL
Pulpo (DISCEFA)

TOP QUALITY FROZEN WHOLE OCTOPUS RAW

The raw octopus retains the typical appearance of fresh octopus in terms of consistency, texture, color, smell and taste.

HOW TO PREPARE COOKED OCTOPUS TENTACLES

1. Defrost and wash the octopus.
2. Fill the pot with water enough to cover the whole octopus.
3. The water has to reach to its boiling point (100° C), and once it breaks to boil, place the octopus in the pot and let the water returns to boil, then lower the heat and leave to cook on a low heat for about 25 minutes
4. Turn off the heat and let the octopus rest in the water for another 20-25 minutes.
5. The octopus is ready for consumption. Serve according to taste.

CUTTLEFISH

We take our inspiration from the traditions of Sardinia to bring the flavours of the sea to your table.

CUTTLEFISH INK

The elegance of black, like the dishes created with our cuttlefish ink

The precious black ink is extracted by slitting the sac and preserving it, maintaining all its properties, flavour and intense colour.

Cuttlefish ink is excellent for making fish dishes or alternatively, used in pasta dough to add a touch of originality to your dishes.

A top-down view of a rustic wooden table. In the center is a shallow, wide ceramic bowl with a blue and white speckled rim, filled with a thick, glossy, dark brown hazelnut spread. The spread has concentric ripples. To the right of the bowl, several whole hazelnuts are scattered on the wooden surface. Some hazelnuts are also visible on the left side. In the bottom left corner, there is a small circular logo with a stylized 'a' and a globe icon.

HAZELNUT

LANGHE: NOT ONLY WINE

Relanghe is a small Piedmontese company producing traditional and handcrafted sweets and we are used to calling it Bottega.

Bottega was founded in 1994 and focuses its attention on the key element: **Nocciola Piemonte I.G.P.** We want to raise awareness of the **prestigious Hazelnut of the Langhe** hills by producing traditional sweets such as torrone, sweet truffles and dragées. We take care of the hazelnut during its entire life cycle, from land to the final product.

A top-down view of a rectangular metal tray containing a frozen puree. The puree is a light cream color, swirled into a decorative pattern. It is garnished with several bright red, almond-shaped objects and a generous sprinkling of small, dark brown seeds. A decorative gold-colored floral and scrollwork pattern is overlaid on the left side of the image, partially covering the puree. A solid yellow rectangular box is positioned over the middle of the image, containing the text 'FROZEN PUREE' in white, bold, sans-serif capital letters.
